Letter to Parents from the Team of Student Mentor program

Dear Parent/Guardian,

It gives us immense pleasure to congratulate you and your son/daughter for your exemplary success. The Institute Student Mentorship Program (ISMP) would like to welcome you and your ward to one of the most prestigious institutes in our country, the Indian Institute of Technology dhArwAD [IITDh].

We believe that, as well-informed parents, you should be familiarized with both the academic and the extra-curricular activities of students at this institute and get an idea about the various opportunities that he/she will have, as well as the underlying responsibilities. The faculty at this institute strives hard to make sure that the academic needs of each of their students are taken care of and also to make his/her stay here comfortable and fruitful. However, there may be times when students require help, academic or otherwise, and we, at the ISMP see to it that these requirements are met promptly and in the best way possible. We would like you to extend your assistance for the same by simply making sure that you know a few things about this institute, to get a general idea of how things function here. This letter is written with the purpose of helping you understand the same.

Institute Student Mentor Program (ISMP)

At this institute, we have respected and well-accomplished senior students mentoring all first-year students. These mentors together constitute the Institute Student Mentor Program, aimed at providing guidance and help to first-year undergraduate (UG) students. The mentors help the first-year students make a smooth transition from life at home to life at this institute and help in clearing the hurdles in their path.

Academic Structure

A typical academic year at IIT dhArwAD is divided into two semesters – Autumn Semester [July- November] and Spring Semester [January-April]. The curriculum at IIT dhArwAD is based on the credit system. Each course is allotted credits based on the number of lectures, tutorials, and lab hours per week.

There is continuous evaluation by means of quizzes, assignments, mid-semester, end-semester examinations, and lab work throughout the semester. At the end of each semester, the student gets an SPI (Semester Performance Index) which is an average of the grades in each of the courses he/she had registered for in that semester, weighted with the credits of those courses respectively. CPI (Cumulative Performance Index) is a weighted average of all the SPIs [till date] weighted on the number of total credits each semester.

The importance of maintaining steady and satisfactory attendance in classes here is well known. It is advised that students do not miss classes due to negligence, or trips home, or elsewhere. Also, it is absolutely compulsory for all students to attend classes during the first week of each semester, except for genuine medical reasons. When medical problems arise, the student is advised to inform the mentor, hostel manager, warden, faculty advisor, and the teachers concerned if

he/she is missing classes. Professors might require medical certificates issued or authenticated by the IITDh authorized Hospital/doctors or other supporting documents in such cases.

Students who enter this institute every year are some of the best brains in the country. Due to the competitive environment here, we have often experienced cases where students who have until now always topped their class, find it difficult to attain grades equal to their expectations. This has often led to one of two extremes: some students face excessive parental pressure, while others simply adopt an indifferent attitude which further reduces their academic performance. We hope that you would encourage your son/daughter to put in his/her best foot forward - treat the best effort from his/her side as the objective, rather than the results.

Hostel Life

At this institute, we believe in the overall development of our students. The general lifestyle of students includes a lot of extracurricular activities in fields of sports, cultural and technical activities, at intra- hostel, inter-hostel and inter-college events. The environment here is very conducive to growth and our institute has some of the best facilities across India. So, we encourage students to take up whatever interests them, and we request you to support them in their choices. There is enough time in a normal IIT student's day to fit in both academics and extracurricular activities without much stress. But, at the same time, it is advised that care must be taken to ensure proper time management such that academics are not neglected because of such activities.

Hostels form an integral part of every IIT student's life. The hostels are well-equipped with the necessary infrastructure and mess facilities. The transition of your ward, from your loving and caring hands to a completely new and competitive environment of IIT, could occasionally cause adjustment problems in the initial period of their stay. Many students find it difficult to get used to a roommate and hostel life for the first time. Sometimes, cultural, social, and language differences further delay the settling-in process. As mentors, we help the freshmen have a smooth transition so that this settling-in process is as short as possible and your wards feel comfortable in this new setting quickly.

Financial Help

In case you are worried about how expensive it is going to be to put your son/daughter through college, don't be. Help is always given at IITDh to those who need it, whether that be academic, financial, or any other kind. Scholarships in the form of Merit- cum- Means (McM) and Free Messing are provided to eligible students that discount the tuition fees and the mess fees respectively. You can find more information about these under the section on scholarships.

Some important issues

Ragging in any form is strictly banned on campus. The student should report any such untoward incident to his/her mentor immediately. We assure you that it will be dealt with confidentiality and with the highest priority. We believe that you will be reassured by the steps that have been taken by the institute to prevent ragging. Interaction of the freshmen with seniors [other than the appointed mentors] is heavily curtailed during their first month, so they get time to adjust. Strict penalties are very much in place, and mentors are always available to resolve any situation promptly.

However, it is expected that the freshmen develop a healthy rapport with seniors as they themselves

are amongst the brightest in the country and excel at various activities. In fact, a healthy Senior Junior interaction is the hallmark of an IIT and we would like to maintain that. Our purpose in sharing the above-mentioned problems with you is to make you aware of them. As parents, you need not be alarmed, but mental preparation and precautionary measures would definitely help.

We hope that this information gives you a fair idea about the life of your ward over the next few years. This institute offers a wide range of opportunities for all who wish to learn in the various spheres of life and we hope that he/she has a productive and memorable time in the institute.

Best wishes,

Institute Student Mentor program, IIT dhArwAD
